

Kidney Disease

Each person has specific toxic exposures along with dietary and genetic weaknesses that are causing their symptoms. Toxic exposures can be inorganic like heavy metals, DDT, VOC's, Radio-active waste and any other chemical like food additives or pesticides and fertilizers sprayed on the foods. They can also be organic or living organisms like parasites, bacteria, viruses, or fungi. All the different possible combinations make it difficult to accurately address issues unless you have experienced medical professionals mapping through all your different clinical symptoms.

Dr. Marilyn Tucker founded The Vibrant Health Community to do Symptom Mapping to be able to bring a completely personalized plan for each person. When you join the Vibrant Health Community you have your own medical team of doctor, pharmacist and health coach. This Team specializes in Integrative-Complementary Medicine. They will work with your personal physician to bring you to a place of as much natural healing as your body will allow. For those of you that have health issues that require prescription medications, your Team can help introduce natural measures that can reduce the imbalances and complications that inevitably come with prescription medication. This can reduce side effects and possible additional drugs having to be introduced.

Definition

Kidney disease is any disease or disorder that affects the function of the kidneys. Your Kidney is a very important organ to your health and must be taken care of. This may include:

- [Acute kidney failure](#)
- [Acute nephritic syndrome](#)
- [Analgesic nephropathy](#)
- [Atheroembolic renal disease](#)
- [Chronic kidney failure](#)
- [Chronic nephritis](#)
- [Congenital nephrotic syndrome](#)
- [End-stage renal disease](#)
- [Goodpasture syndrome](#)
- [Interstitial nephritis](#)
- [Kidney cancer](#)
- [Kidney damage](#)
- [Kidney infection](#)
- [Kidney injury](#)
- [Kidney stones](#)
- [Lupus nephritis](#)
- [Membranoproliferative GN I](#)
- [Membranoproliferative GN II](#)
- [Membranous nephropathy](#)
- [Minimal change disease](#)
- [Necrotizing glomerulonephritis](#)
- [Nephroblastoma](#)
- [Nephrocalcinosis](#)
- [Nephrogenic diabetes insipidus](#)
- [Nephropathy - IgA](#)
- [Nephrosis \(nephrotic syndrome\)](#)
- [Polycystic kidney disease](#)
- [Post-streptococcal GN](#)
- [Reflux nephropathy](#)
- [Renal artery embolism](#)
- [Renal artery stenosis](#)
- [Renal disorders](#)
- [Renal papillary necrosis](#)
- [Renal tubular acidosis type I](#)
- [Renal tubular acidosis type II](#)
- [Renal underperfusion](#)
- [Renal vein thrombosis](#)
